TWENTY-SECOND YEAR.

## ON BULL HILL.

Cripple Creek Miners Temporarily Suspend Hostilities.

Arbitration is Now Strongly Talked Of.

GOV. WAITE TALKS.

Says He Is Determined to Suppress Fighting.

Situation in the Other Mining Districts.

CRIPPLE CREEK, Colo., May 28.—The deputies, who now number about 300, are in camp at Divide, where the Midland Terminal railroad running to this camp connects with the Colorado Midland. It is believed no attempt will be made to march to Victor or Bull Hill pending the result of the proposed arbitration, which is extremely doubtful.

The self constituted committee which proposed this plan of settling the trouble to the miners yesterday, spoke only for J. J. Hagerman, one of the heaviest mine owners. Other mine owners had not agreed to submit to arbitration, and it is not known how they regard the proposition. President Caldwell of the Victor miners' union favors arbitration, and a meeting of the union will be held today to decide whether a committee shall be appointed for this purpose.

A dispatch from Colorado Springs says that Sheriff Bonners released Russell, Mason and Todd, the three striking miners captured at Wilbur, in pursuance of an agreement made yesterday in order to save the lives of Superintendent Sam McDonald, Foreman Charles Robinson and Miner Jack Goodhue, who were captured by the strikers at the Strong mine after the blowing up of the shaft house. President Caldwell of the Victor miners' union when notified of the sheriff's action, telephoned that the three men with their arms must be delivered to him on Bull Mountain. The sheriff was not inclined to comply with this demand. The miners' hatred of McDonald is intense and they had determined to put him to death today and then execute their other prisoners if an exchange of prisoners were not agreed to.

### ARBITRATION ASSURED.

The Striking Miners Appoint a Committee Today.

CRIPPLE CREEK, May 28.—The Victor miners have appointed President John Caldwell and Shepherd Morison as an arbitration committee. They will meet the mine owners' committee at Altman.

The miners meeting was large and harmonious, and the miners generally are hopeful of reaching a settlement by arbitration.

### ONE GLEAM OF REASON.

Governor Waite Advocates a Plan for Arbitration—Will Uphold the Law.

DENVER, Colo., May 28.—Governor Waite is leaning in favor of arbitration as a means of ending the labor war at Cripple Creek and wired to President Slocum of the Colorado college, who has undertaken to induce both sides to agree to arbitration.

"Will join you in urging peaceable settlement between miners and mine owners."

"I am looking into the law and awaiting developments. If there is actual conflict between the deputies and the miners I will not hesitate to call out the troops. I feel that I would stand on constitutional grounds in doing so. In case of a battle I shall certainly take a hand."

"What will the troops do if they go into the field?"

"They will not act as guards to mine property," was the governor's emphatic reply, "but they will stop the fight, be assured of that. The course for the mine owners to pursue is to take action through the courts to secure possession of their mines. I have received no information that the miners have resisted any process of law if it is properly brought. Isn't it about time for the mine owners to explain why they are gathering armed forces in El Paso county?"

The Denver trades assembly has appointed a committee to obtain the names of persons enrolling as deputy sheriffs from Denver to assist against the striking miners at Cripple Creek and a list of mine owners contributing toward the fund for carrying on the war. The deputies are nearly all Denver ex-police-men.

The vote was nearly unanimous and was preceded by a discussion in which the ex-police-men who have gone to Cripple Creek were hotly denounced.

### A. P. A. ISM IN IT.

Charges Made by a Methodist Minister, But Soon Refuted.

CRIPPLE CREEK, Colo., May 28.—In a sensational sermon on the labor troubles of the country Rev. H. E. Warner, Methodist, said:

"If it is true, as I understand from the best authority which I have been able to obtain, that the present trouble in Cripple Creek is due to the fact that the mine owners will not appoint half a dozen Catholic bosses, and if it is true that an organization which might settle the difficulty has refused to do so on this account, then I say that the A. P. A. was not organized any too soon."

There was a chorus of amen, and the congregation broke into vociferous applause.

Alexander McIntosh, state organizer of the Western Federation of Miners, says the published reports that the miners' union of Cripple Creek is composed almost exclusively of foreigners and Catholics is untrue. Over eighty per cent of the members, he says, are American citizens, and less than one-sixth Catholics. The president is a Scotch Presbyterian.

### A BOATLOAD OF MINERS.

They Go Unarmed to Meet the Militia at Spillman, W. Va.

POMEROY, Ohio, May 28.—At 8 a. m. a steamboat load of miners from towns above, passed down on their move on Senator Camden's works at Spillman, W. Va., today. They will be reinforced by land forces. They expect to face the West Virginia militia there. The miners are not armed and expect to accomplish their purpose by persuasion.

With this mine shut down the Cincinnati and Pomeroys packets will have to go to the bank as there is no other place to get coal. The miners propose to camp at the mouth of the mine until the work is shut down.

### MOVED BY MILITIA.

The Illinois Central Train at Mazonk in Charge of Soldiers.

MINONK, Ill., May 28.—Col. Duncan with four companies of militia arrived here today. Sheriff Tool, with 150 deputies was out all night and during the morning, preparations were made to move the Illinois Central train that had been delayed by the striking miners. The officials finally started the train which moved north at a slow rate proceeded by the militia and escorted on the other side by the sheriff and his men among whom were a number of old veterans. An occasional man carried a Winchester, others had revolvers.

At the crossing of the Santa Fe where the miners to the number of 150 were congregated and when the trouble, if any, would occur, everything was quiet and a speedy passage was made.

### ONE MORE SHOOTING.

Chief Watchman at the Moyer Coke Works.

SCOTTSDALE, Pa., May 28.—Three Hungarians, strikers, succeeded in getting through the lines of the deputies on guard at the Moyer coke works about 11 o'clock last night for the purpose of doing some damage. They were discovered by George B. Keffler, chief watchman, who attempted to arrest them.

"In the struggle one of the Hungarians pulled a revolver and shot Keffler in the breast inflicting probably a fatal wound. The Hungarians then fled and were not recaptured. As they ran Keffler raised himself from the ground and fired six shots after them.

From the blood along the road it is thought some of the shots took effect. The cold and rainy weather today prevented the strikers from marching and everything is quiet.

### KANSAS MINERS GO TO WORK.

The Strike Situation at Pittsburg in a Very Satisfactory Condition.

PITTSBURG, Kan., May 28.—About 100 miners went to work at the Wear coal shaft No. 2 at Kirkwood this morning, at the 87½ cent rate and \$1 settlement. The men at the Fleming mines of the Western Coal and Mining company held a meeting last night and decided to go back to work for the same price, but as the company has taken no action on their proposition.

The Brown and Barrett works will be started up again tomorrow. This leaves the strike situation in this district in a very satisfactory condition; for with the exception of the Fleming mines, every shaft is working a full force.

### MAY BREAK THE STRIKE.

Negroes Will Be Employed if Miners Don't Return.

PITTSBURG, Pa., May 28.—W. P. Rend of Chicago, operator of the Jumbo mines in the Panhandle district, has given his miners a week to return to work or submit to having their places filled by imported negroes. He has stacks of Winchester and boxes of ammunition in his mine offices to enforce the resumption.

The miners realize that if Rend could get these mines in successful operation it would practically break the strike and many of the men swear they will shoot the negroes if they are brought in.

### INDIANA MINERS QUIT.

TERRE HAUTE, Ind., May 28.—The 800 miners who captured a Big Four train and came to Terre Haute on Friday and returned to their homes on Saturday have made no further move to go to Pana, Ill., to get the miners there out. The belief here is that the idea of going to Pana has been abandoned.

### Trains Stopped at Brazil.

BRAZIL, Ind., May 28.—Three hundred miners have stationed themselves at Pontanet, north of here on the Big Four, and stop every freight train. They thoroughly examine each car to see if any coal is being transported. They now have ten cars of coal side-tracked and guarded night and day.

### It's Tough for Deputies.

DENVER, May 28.—Ex-Policeman Hobart's second in command in the squad of deputies organized here and sent to Cripple Creek returned today for the purpose of recruiting more men to take the places of the deserters. About fifteen of the original force refused to serve longer on account of the hardships to which they were subjected.

### May Be Peacefully Settled.

SPRINGFIELD, Ill., May 28.—A number of Illinois miners and operators arrived here today to attend the miners' conference at 2 o'clock.

A prominent operator informed the Associated Press representative that he believed the outcome of the conference would be the settlement of the strike within a few days.

### Firearms Called For.

PARKERSBURG, W. Va., May 28.—Hard-ware men here have been telegraphed to from the Camden mines on the Ohio River railroad for all the firearms available. Company E is in readiness to march at a moment's notice to quell the rioters.

### Julia Marlowe Married.

PHILADELPHIA, May 28.—Miss Julia Marlowe, the actress, and Robert Tabor, formerly her leading man, were married at St. James church in this city today.

### Ramsay Exonerated.

DENVER, May 28.—The convention of the Order of Railway Telegraphers, after a full investigation of the charges against Grand Chief Ramsay, has exonerated him.

## READY TO LEAVE.

Sanders to Depart from Leavenworth on Wednesday.

Joined Today by the Men From Sabetha.

SANDERS IS RELEASED

On Bond and Men on Their Own Recognizance.

Other Coxe News From Washington and Elsewhere.

LEAVENWORTH, Kan., May 28.—Forty-eight of Gen. Bennett's commonwealthers who left Denver several weeks ago arrived here early this morning from Hiawatha and went straight to Gen. Sanders' camp on the reservation.

Marshal Neely forced them out and they took possession of a grove not far away. Col. Townsend, commander of Fort Leavenworth, gave them until noon to leave the reservation. The remainder of Bennett's, about fifty will arrive tonight and the Topeka army will reach here tonight or tomorrow morning.

Gen. Sanders says the consolidated armies will leave here not later than Wednesday. Sanders and his engineers have given bond for their appearance for trial next September and the remainder of the men go on their own recognizance.

### WELCOMED LIKE A HERO.

Kelly's Army to Be Received With Open Arms at St. Louis.

ST. LOUIS, May 28.—Labor leaders are making great preparations for the reception of "Gen." Kelly and his army of commonwealthers. The arrangements are in the hands of a joint committee, consisting of seven members of the Trades and Labor Union, seven of the Building Trades Council, seven of the German Arbeiterbund, and five of the Knights of Labor.

The fleet is to be met some twenty miles up the river by an excursion steamer with music, carrying many men prominent in labor circles. The landing will be made at the foot of Ferry or Smith street, when a mass meeting will be held as soon as possible, a monster parade organized. There will certainly be a brief march made. There will be a banquet awaiting the industrialists that will make their eyes bulge out as big as marbles. It is to be furnished by N. Sebastian, 201 South Broadway. Learning that arrangements had been made to have the industrialists go into camp on the levee, he decided to get up a barbecue. So he bought twelve fat bullocks and twelve head of sheep, and engaged several wagon-loads of vegetables of different kinds. He also engaged a wagon-load of fresh bread and a big tent to store the provisions in. He will have a trench dug and a load of hickory logs for the fire. The Butcher Union has loaned him the necessary tools. Mr. Sebastian yesterday wrote to Gen. Kelly, informing him of the arrangements made for giving the industrialists a treat and inviting the commander to stop at his house during his stay in St. Louis. He says he has got a fine parlor with piano and lots of fine paintings that he will place at Gen. Kelly's disposal, and he will be proud to entertain the leader of the army the best he knows how.

Among the speakers invited to attend the mass meeting are Paul Vandervort, President of the American Industrial Legion of Omaha, Gen. Kelly and others. Already over \$200 has been sent in to the committee's headquarters in the office of the Union Record, 417 South Fourth street, and it is expected to raise fully \$1,000 for the naval fleet weathers. It is also thought Kelly will receive at least 200 recruits here.

Gen. Kelly has been requested to come on in advance of his army and inspect the arrangements made for the reception of his men. The main body is expected to arrive about the middle of the week, as they are to be entertained at Altan.

### IN BARGES FOR PITTSBURG.

Frye's Army 400 Strong Leaves Cincinnati Today.

CINCINNATI, May 28.—Frye's industrial army, 400 strong, broke camp after dinner to take the barges in which they leave for Pittsburgh. The Cincinnati regiment that has joined the army here numbers 150, so Frye takes up over 500 men.

### DENVER WEALERS.

Twenty-five Hundred Men To Be Enrolled Before They Start Eastward.

DENVER, Colo., May 28.—The local brigadier general, K. W. Morris, says the Denver commonwealth army will not start for Washington until 2,500 men are enrolled and it will then go straight through by rail.

There are now 632 names on the roll and it is estimated the number headed for Denver is 700. Carter and his 275 industrialists have reached Pueblo en route to Denver. The commonwealthers are about to forward a petition to President Cleveland for the release of Coxe.

### SHE JOINS THE COXITEES.

A Woman Beats Her Way from Portland to Denver.

DENVER, May 28.—The local army was increased today by the arrival of McCauley's California contingent of seventy-five men. Calhoun, one of Carter's lieutenants, and sixty men left to beat their way on freight trains east.

Mrs. J. Paringbone, of Portland, Oregon, joined the Denver army today. She said she left Portland without a cent.

### ATTACK THE TRAIN.

Italian Miners at Rouse, Colo., Driven Off With Shovels.

ROUSE, Colo., May 28.—One thousand miners, the combined Fremont county and Trinidad forces, marched into this camp today. So far they have behaved peaceably. One hundred and fifty

miners are working today and express willingness to continue work if afforded protection.

At noon twenty Italian miners from Trinidad coming hither to make the miners of this town quit work, reached Rouse Junction on the Denver & Rio Grande railway. They hung around the station until the local train pulled in from the south. Conductor Evans saw that they wanted to capture the train and ordered the engineer to start at the highest possible speed at which he received a private signal. The miners drew their guns and rushed for the engineer. The engineer and fireman beat them off with shovels and knocked several guns out of the hands. Several shots were fired. A sheriff's posse captured the men and placed them in jail here. Their friends threaten to storm the jail.

Picton miners have gone out and joined Trinidad and Fremont county miners here, making a force of 1,300 men. Rouse miners are still working.

### WILL THERE BE A PICNIC?

The Santa Fe Shopmen Don't Want to Pay Seventy-five Cents.

Very little was done at the meeting of the Santa Fe shopmen to discuss the picnic rate, at Hamilton hall Saturday afternoon but "talk it over." The only thing of importance done was the appointing of a committee to meet Mr. Frey as soon as convenient and see what could be done towards inducing him to lower the round trip rate from 75 cents to 50 cents. The men declare they will not pay the 75 cent rate.

He said to a JOURNAL reporter that the plan was absurd as the supreme court had during the administration of Governor Martin, decided that the governor could not be touched with a writ of mandamus.

It is now understood that the governor has referred the charges back to the directors and Warden Chase. Warden Chase is in Topeka today in consultation with the governor.

He said to a JOURNAL reporter concerning the charges: "I discharged Mr. Bunn, the mine superintendent, on the 9th of this month for incompetency; for furnishing whisky to the convicts; for leaving the drawer of his desk open and his revolver lying in it where the convicts could get it. Mr. Stonebocker, the other man who filed the charges, was discharged last fall for meddling with the business of other officers."

"In those charges they do not accuse me of any dishonesty. The governor investigated the matter and returned the charges to them quoting section 5, session laws of 1891, which provides that they shall be the duty of the board of penitentiary directors to investigate charges against the warden or any of the officers of the penitentiary."

"Charges have also been made by Bunn against George Hollenbeck and T. H. Butler, two of the penitentiary directors because he asked them to come and investigate the condition of the mine, and they refused to do it."

"How about the hay deal?" asked the reporter.

"Well sir, about August or September I bought a car load of hogs to feed the slop to from the penitentiary, thinking I could make more out of it that way than by selling it at \$6 a month, which was the price we were getting for it. I bought the hogs and my action was approved by the board. Every bushel of corn feed was charged to the hog lot, and I have the satisfaction of knowing that the proceeds of the hogs after deducting all other expenses, brought a profit of about \$500 in about six months instead of \$36 as we had been receiving."

Governor Lowelling said: "I understand that mandamus proceedings will be commenced. I understand from the statutes that it is the duty of the board of directors to investigate charges. They will have a meeting on June 8, and it is understood they will consider the complaints. There was no charge of corruption or dishonesty made except that it was implied that he had taken money from the funds of another appropriation. It is not charged that he used the funds for his own use and if the charges were true he only technically violated the law and that as Mr. Chase says, in the interest of the state, I will do nothing until I hear from the action of the board of directors."

### TO CONFIRM 94.

A Notable Religious Ceremony at the Church of the Assumption.

This evening, at the Church of the Assumption, will take place the confirmation of ninety-four communicants, at 7:30 o'clock.

The special music for the occasion will be the "Veni Spiritus Sanctus," and Veni Creator Spiritus." Mr. Chas. Reeske will sing the latter. The ceremony of confirmation consists in the imposing of hands by Bishop Burke and the anointing of the Holy Chrism.

Bishop Burke will have charge of the services, and he will be assisted by the Very Rev. F. M. Hayden, Father E. M. Coolen, his assistant, and Father Frank Henry of the German Catholic church of this city, Father Thomas Moore of Holy Cross, Pottawatomie county, and Father M. Cavanaugh of Osage City.

Yesterday morning at 8 o'clock the first communion was given to about eighty communicants.

Miss Irene Horner sang a solo and the junior choir, with Miss Ella Wingart, as organist, sang a mass.

Confirmation only takes place every two years and is one of the most solemn of the ceremonies that the Catholics celebrate.

### MISS McCABE RESIGNS.

Miss Mary McCabe will at the end of this week retire from the Capital and will devote her time during the summer to soliciting life insurance for a large company in this city. Miss McCabe does not expect to retire permanently from the newspaper work but wants to take some special studies in literature before resuming her newspaper labors. The newspaper profession can ill afford to lose her from its ranks.

### St. Paul, May 28.

The convention of Brotherhood of Locomotive Engineers today closed up the insurance matters. It was decided to dispose of the Meadow Lake farm, the freehold of the order situated in Illinois, and the proceeds will be converted into a fund for disabled members of the order.

### THE RIVER FALLING.

ATCHISON, May 28.—The river is falling. The damage by the flood at East Atchison will not likely be great. The rip-rapping work continues and is successful.

## NO MANDAMUS.

The Governor Can't Be Reached in That Manner.

In the Alleged Crookedness of Warden Chase.

DICK CHASE'S SIDE.

Reasons Why He Discharged Employee Asa Bunn.

The Board of Directors the Proper Investigators.

The scheme to mandamus Governor Lowelling and compel him to order an investigation of the charges filed against Warden Chase and the directors of the penitentiary has been abandoned. After talking with a JOURNAL reporter Saturday afternoon, Asa Bunn, the discharged mine superintendent held a long consultation with Lawyer G. C. Clemens about the proposition to mandamus the governor.

Mr. Clemens told Mr. Bunn that the plan was absurd as the supreme court had during the administration of Governor Martin, decided that the governor could not be touched with a writ of mandamus.

It is now understood that the governor has referred the charges back to the directors and Warden Chase. Warden Chase is in Topeka today in consultation with the governor.

He said to a JOURNAL reporter concerning the charges: "I discharged Mr. Bunn, the mine superintendent, on the 9th of this month for incompetency; for furnishing whisky to the convicts; for leaving the drawer of his desk open and his revolver lying in it where the convicts could get it. Mr. Stonebocker, the other man who filed the charges, was discharged last fall for meddling with the business of other officers."

"In those charges they do not accuse me of any dishonesty. The governor investigated the matter and returned the charges to them quoting section 5, session laws of 1891, which provides that they shall be the duty of the board of penitentiary directors to investigate charges against the warden or any of the officers of the penitentiary."

"Charges have also been made by Bunn against George Hollenbeck and T. H. Butler, two of the penitentiary directors because he asked them to come and investigate the condition of the mine, and they refused to do it."

"How about the hay deal?" asked the reporter.

"Well sir, about August or September I bought a car load of hogs to feed the slop to from the penitentiary, thinking I could make more out of it that way than by selling it at \$6 a month, which was the price we were getting for it. I bought the hogs and my action was approved by the board. Every bushel of corn feed was charged to the hog lot, and I have the satisfaction of knowing that the proceeds of the hogs after deducting all other expenses, brought a profit of about \$500 in about six months instead of \$36 as we had been receiving."

Governor Lowelling said: "I understand that mandamus proceedings will be commenced. I understand from the statutes that it is the duty of the board of directors to investigate charges. They will have a meeting on June 8, and it is understood they will consider the complaints. There was no charge of corruption or dishonesty made except that it was implied that he had taken money from the funds of another appropriation. It is not charged that he used the funds for his own use and if the charges were true he only technically violated the law and that as Mr. Chase says, in the interest of the state, I will do nothing until I hear from the action of the board of directors."

### EXAMINE YOUR MONEY.

The Official Description of the Topeka Counterfeit \$5 Bill.

Wm. P. Hazen, chief of the United States Secret Service, gives the following description of the counterfeit \$5 bill made by Frank L. Turner of this city:

"The portrait of Grant is very poorly executed and bears little resemblance to that of the genuine. The seal is well engraved but the color is bad. The treasury numbers are very good, but not heavy enough in design nor deep enough in color. The lathe work is very poor, it being impossible to trace any of the lines. The counter containing the figure '5' on left side of note has a crooked, distorted appearance."

"In the genuine the lower loop of the 'J' in the signature 'J. P. Fount Tillman,' barely clears the top of the last figure '1' in 'Series 1891,' while in the counterfeit there is a space of 1-32 inch between them. The official designation 'Treasurer of the United States' under the signature 'D. N. Morgan' is 1/2 of an inch shorter in the counterfeit than in the genuine. In the word series, which appears in two places on the note, the 'i' is not dotted."

"The note is printed on a good quality of plain bond paper, no attempt having been made to imitate the distributed silk threads to be found in the genuine."

### IN SECRET SESSION.

Senate Committee Tries to Compel Witnesses to Disclose Sources of Information.

WASHINGTON, May 28.—The senate committee investigating alleged influences of the sugar trust upon the tariff legislation has been in secret session today considering the subject of compelling witnesses to disclose the source of information.

The committee will report tomorrow.

### A STEAMSHIP CAN'T GO.

Lack of Coal Keeps a Big Ocean Freighter in the Harbor.

NEW YORK, May 28.—The trans-Atlantic freighter Francisca, which left her docks here on Saturday is still in the inner harbor.

The coal with which her bunkers had been filled was of such poor quality that the vessel was laid to off Liberty island, while lighters took it off and brought her here. It is a direct result of the coal miners strike.
